Titanfall

★★★★★

Stand by for Titanfall. Crafted by key developers behind the CALL OF DUTY franchise, Titanfall is the first next-gen shooter that combines pure adrenaline, wall-running, double-jumping action with powerful, fast-paced titan warfare to set the new bar for online multiplayer gameplay. Delivering blistering fast, fluid combat that gives you the freedom to fight your way as elite, assault pilots or agile, heavily armored titans. Rethink fundamental combat and movement with new abilities to change tactics on the fly, attacking or escaping depending on the situation. Heart-pounding multiplayer action combined with dramatic, cinematic moments lets you enjoy the fiction and characters of the universe without having to leave your favorite game online multiplayer mode. Online multiplayer matches featuring both human/AI allies and enemies create an experience like none other. The downloadable version of this game supports English, French, German, Japanese and English.

Broken Bells

2008 • Present

Though Broken Bells featured two of the bigger names in indie and alternative music -- the Shins' singer/guitarist James Mercer and producer/multi-instrumentalist Brian Burton, aka Danger Mouse -- the duo managed to keep their project secret for a relatively long time. The pair were inspired to collaborate when they met at 2004's Roskilde music festival in Denmark, where they discovered they were fans of each other's work.

Cloud Atlas

David Mitchell • 2004

A postmodern visionary who is also a master of styles and genres, David Mitchell combines flat-out adventures, a Nabokovian love of puzzles, a keen eye for character, and a taste for mind-bending philosophical and scientific speculation in the tradition of Umberto Eco and Philip K. Dick. The result is brilliantly original fiction that reveals how disparate people connect, how their fates intertwine, and how their souls drift across time like clouds across the sky.
